

Jazler

Mode Selection

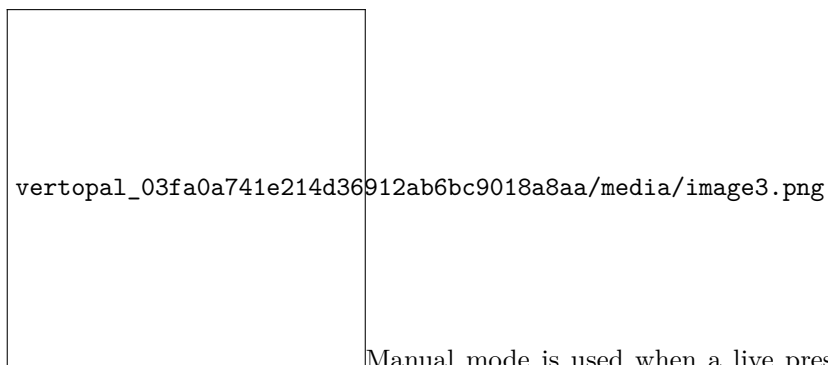

Figure 0-1 Jazler Main Screen

To change the operation mode of Jazler, click on the mode button found on the top line of the screen. This button will display the current mode of jazler (Manual, Auto, Offline)

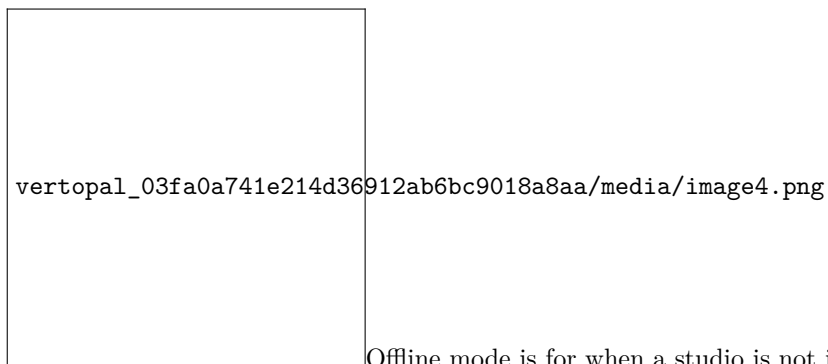

Auto mode is used for when the studio is in automation / unattended mode, such as overnight or when a live presenter is unavailable.

Figure 0-2 Auto mode button

Manual mode is used when a live presenter is present. In this mode, you will be alerted when a scheduled break is due to play, and then must be played manually.

Figure 0-3 Manual mode button

Offline mode is for when a studio is not in use or not on air.

Figure 0-4 Offline mode button

When you are finished with a studio, and that studio is not being used by another presenter or automation, please leave it in “Offline” mode.

Playing Scheduled Breaks

TODO: How to play scheduled breaks
